EDUCATION	École Polytechnique Fédérale de Lausanne Ph.D., Operations Research	2021 – Present
	École Polytechnique Fédérale de Lausanne M.S., Mathematics	2019 – 2021 GPA: 5,5/6
	New York University Shanghai B.S., Honors Mathematics (minor in Data Science), <i>Magna cum laude</i>	2015 – 2019 GPA: 3,8/4
	New York University (Courant Institute) B.S., Honors Mathematics	2018 – 2019
RESEARCH EXPERIENCE	EPFL Supervisors: Prof. Tobias Sutter, Prof. Daniel Kuhn	2019 – 2020
	– Derived novel consistency result for data-driven distributionally robust optimization (DRO) based on Large Deviations	
	– Proposed a new customized algorithm to solve the data-driven DRO problem with proved convergence result	
	– Resulting paper: Distributionally Robust Optimization with Markovian Data (<i>ICML 2021</i>)	
	New York University Shanghai Supervisor: Prof. Daniel Kioussis	2018
	– Studied urn models, self-organizing processes and reinforcement learning	
SERVICE	Reviewer for <i>Operations Research Letters</i> .	
HONORS	NYU Shanghai Excellence Award	2019
	Meritorious Winner at Interdisciplinary Contest in Modeling	2019
	NYU School of Engineering Summer Research Program Honors Fellow	2018
	NYU Shanghai Dean's Honors List	2016, 2017, 2018
	NYU Shanghai Dean's Undergraduate Research Fund	2018
SKILLS	Familiar with Python and Matlab.	
TEACHING EXPERIENCE	<i>Tutor for Digital Logic</i> New York University Shanghai, China	2017
	<i>Tutor and Grader for Calculus</i> New York University Shanghai, Shanghai, China New York University, New York, USA	2016, 2018
	<i>Teaching Assistant</i> MBA Education Center, China University of Mining and Technology, Shanghai, China	2015 – 2019
